

E MEDI-ACADEMY

BRIDGE THE GAP

FOUNDATION IN FLOW CYTOMETRY

Join if you :

- Want to master the principles behind one of the most powerful tools in diagnostic hematopathology
- Are curious about how fluorochromes, lasers, and antibodies come together to identify complex cell populations
- Need to sharpen your skills in gating strategies, dot plot interpretation, and multicolor panel design
- Aim to correlate flow findings with morphology, immunohistochemistry, cytogenetics, and molecular data for comprehensive diagnosis
- Are looking to confidently classify hematolymphoid neoplasms using WHO 5th edition and ICC 2022 guidelines
- Want to stay updated on the latest in measurable residual disease (MRD) detection and standard protocols from EuroFlow, ELN, and ASH
- Are ready to apply ICSH and CLSI guidelines for quality control and lab standardization in real-world practice

Class Information

- 15 Online classes starting from Aug 2025, 1 Hour followed by Q&A
- Classes scheduled once a week
- 5 Self assessments
- Certificate course
- Videos and reading material will be available online to enrolled participants

Trainer:

Dr. ANKITA JAISWAL,
PDCC Haematopath, MD Path,
Head Haematology & Flow Cytometry,
Core Diagnostics, Gurugram
