WELCOME MESSAGE

Dear All,

Greetings from Ahmedabad.

I would like to invite you all to the 18th Annual Conference of the Indian Society of Renal and transplantation Pathology, scheduled from Thursday, September 18th, to Saturday, September 20th, 2025 at Taj Skyline Hotel, Ahmedabad, Gujarat.

The conference will include one-day pre-conference CME covering topics of basic native renal and renal transplant pathology, -basic lab technologies related to renal biopsy interpretation and also biopsy interpretation with clinicopathological correlation for different syndromes in nephrology, giving a complete insight into nephropathology for beginners (medical students, practicing pathologists, Clinicians). This will be followed by a quiz, prizes for the winners, and panel discussions guiding the delegates for nephropathology day-to-day practice. Workshop of immunofluorescence techniques is also included first time.

The main conference on 19th and 20th of September 2025 will include updates in native renal and renal transplant pathology by various national and international faculties, helping practicing nephropathologists resolve their day-to-day practice challenges in the interpretation of difficult cases and networking with all. Special update of molecular pathology in Renal diseases is also planned.

For the first time we have reduced the conference from 2 and half day to 2 days and also we are planning to accomodate all faculties and delegates on same conference venue to save on time of travels which can be better utilised for academics, view posters at ease and enjoy networking with all during conference and after hours.

19th september evening will be followed by Inauguration and Gala dinner. First 5 selected posters will have to do oral presentation followed by prize distribution and farewell on 20th September evening.

On behalf of organising team of ISRTPCON 2025 and Neuberg supratech Reference Laboratory-a unit of Neuberg diagnostics private limited, I welcome all to attend conference to have academic feast as well as enjoy the Gujarat culture.
