

Dear friends,

The Department of Pathology, Government Medical College, Kozhikode is glad to invite delegates for the upcoming Post Graduate training program CALIPATH 2026 to be held in the month of NOVEMBER

The program offers delegates an exciting range of morphology based SLIDE SEMINARS covering various organ systems and Update Lectures in the field of pathology by eminent faculty from across the country.

The program is literally a 'HANDS ON WORKSHOP' in that delegates get to actually view glass slides of the various slide seminars that are held. Another highlight is "PEARLS IN HISTOPATHOLOGY" where 20 different classical and exquisite pathology cases will be on display in the slide viewing hall on all days. This unique and intensive training program is open to final year post graduates only and numbers will be limited to 110.
